## Synopsis:

For the first time since the end of the Cold War, the world is steadily becoming less democratic. The true culprits are dictators and counterfeit democrats. But, argues Klaas, the West is also an accomplice, inadvertently assaulting pro-democracy forces abroad as governments in Washington, London and Brussels chase pyrrhic short-term economic and security victories. Friendly fire from Western democracies against democracy abroad is too high a price to pay for a myopic foreign policy that is ultimately making the world less prosperous, stable and democratic.

*The Despot's Accomplice* draws on years of extensive interviews on the frontlines of the global struggle for democracy, from a poetry-reading, politician-kidnapping general in Madagascar to Islamist torture victims in Tunisia, Belarusian opposition activists tailed by the KGB, West African rebels, and tea-sipping members of the Thai junta. Cumulatively, their stories weave together a tale of a broken system at the root of democracy's global retreat.
